Yonatan Galili

Frontend Developer
Ramat HaSharon, Tel Aviv District, Israel

Summary

I am an experienced front-end developer passionate about creating modern web applications using industry best practices. My expertise lies in crafting immersive experiences driven by empathy and a deep understanding of user behavior. I love bringing these experiences to life using the latest web development technologies.

Over the past four years, I have been contributing to and leading various projects involving React and Angular, staying up-to-date with the ever-evolving front-end landscape.

Additionally, I bring five years of valuable experience as a UX architect at a top consulting firm, which has given me a holistic perspective on web development, ensuring that the products I work on are not just technically robust but also user-centric.

As a proactive self-starter, I take pride in tackling challenges head-on and delivering results that exceed expectations. I thrive in a collaborative environment, valuing teamwork and synergy as crucial to successful project execution, and tackle every task with a strong sense of personal accountability and commitment. This approach earns the trust of clients and product managers, who know they can rely on me to help them deliver exceptional results, as evidenced by the many successful projects I've been a part of.

Experience

Discount Bank בנק דיסקונט
Front End Developer
February 2024 - Present (2 years 2 months)

MagnaD Integrations
Lead Frontend Developer
February 2022 - September 2023 (1 year 8 months)
Tel Aviv, Israel

As the lead UI Developer for blockchain based smart contract applications, my primary responsibility was to design, develop, and deploy feature-rich front-end applications, ensuring seamless integration with the underlying DAML framework.

- With a self-managed approach, I coordinated with stakeholders from international companies, successfully meeting their unique requirements and exceeding their expectations.
- Played a key role in advancing Zinnia's next-gen customer platform. Zinnia, the leading insurance policy life cycle management company in the United States, manages a vast portfolio consisting of tens of millions of policies.

UI - Human Factors Ltd.

Frontend Developer

September 2019 - February 2022 (2 years 6 months)

Netanya, Israel

As a Front-End Developer and Project Manager at UI, I acquired practical experience while working on a diverse array of projects and utilizing various technology stacks. My contributions were instrumental in developing user interfaces for both B2B and B2C Single Page Applications. Moreover, I took on leadership responsibilities, overseeing project budgets, providing guidance, and ensuring successful project execution.

5IVE :: innovation & ux

UX Architect

September 2014 - March 2019 (4 years 7 months)

As UX designer for 5ive, one of Israel's leading UX agencies, I was involved in laying out the architecture, designing interactions and overseeing UI design for multiple apps including B2B, B2C and Complex Systems for mobile and desktop.

As part of the design team, I worked with both large int'l corporations and start-ups.

- I was involved in all aspects of the app's life cycle, from concept through design, development, and testing, and finally to the app's release.
- Continual UX support for new features and versions
- Produced detailed UX specs and coordinated product, development and design efforts
- Worked closely with PMs and developers in Agile environments

- Created complex mockups that served as the focal point of international marketing campaigns as well as quick prototypes that showed intended features to developers and other stakeholders.

Self Employed

UX Designer

2014 - 2015 (1 year)

UX designer for websites, web and mobile apps.

Completed Netcraft Academy's UX Course

Freelance / Various

Film & Video Editor

1997 - 2013 (16 years)

Tel Aviv & NYC

Film and video editor in Israel and the US. Worked on numerous high-profile projects. Worked for national broadcasters such as ABC, AMC, and MTV. Won multiple accolades, including for editing a Daytime Emmy Award-winning documentary.

As creative director, I led teams of animation, design, and sound artists in producing promos, commercials, and new media.

Israel

- Editor of major TV shows such as Connected, Amazing Race IL, Trinny & Suzanna
- Chief Editor of Journey to Planet Mikmak, the first Israeli feature-length animation film. I oversaw the editorial department in conformance with the creative vision and budget considerations

USA

- Member of the editorial team on A Late Quartet, a high-profile indie feature film with an Oscar-winning crew and cast. Coordinated the editorial department's technical, creative, and logistical activities and contributed editorial.
